House Room located in southern Mexico City, built on land near the 2000m², a construction of around 2000m. The house is built almost single plant but the parking space and a couple of rooms for visitors on the first floor. Downstairs are 2 large areas, the public areas with kitchen, dining room, formal living room, screening room, bar, foyer and the private areas, TV room, work room, game room, library, the main room and the children's room (daughters in this case).

此住宅位于墨西哥城南部，独栋而建，占地面积达2000平方米，楼下有停车场与两间客房，一楼分为两大区域，即公共区域与私人区域。其中公共区域包括厨房、餐厅、客厅、放映室、吧台、门廊；私人区域则包括电视机房、工作室、游戏房、书房、主卧与儿童卧室（此案例中屋主孩子为女孩）。

The interior project was developed by DIN interiorismo jointly with the client, which in this case had a very important role and the architectural team in charge of Carlos Balcazar, construction and supervision of Architect Jesus Sanfeliz and a large group of professionals in services, lighting, structural, landscaping, etc.

The materials are mainly cream marble and wooden floors, flat on walls and other stone details. Some details in onyx, silver leaf and leather. There are 2 kinds of furniture; the designed is the most plentiful and brands such as Ralph Lauren, Teys, Donna Living and others. These parts are in harmony with the riches of textile curtains and accessories. The library area is embracing the staircase, a sculpture of artist Enrique Espinosa, based on an idea developed in the interior proposal.

Overall the house has high ceilings that look a lot in living, dining and bar. It also helped that the art shown really looks. Natural light is abundant and the large garden of more than 600 m². is seen from every point.

The whole house was designed for the enjoyment of the clients and that's why play areas abound, for the girl's entertainment and education. Also because of the interest on film and music there are many spaces for the enjoyment of these, as the media room or high-quality sound in the garden. Additional areas integrate to develop a great social and family life. Given the dimensions, color palettes are several. In public areas it is based on cream with red brick accents, tones roasted and in the bar turquoise. The main room is dominated by light and dry green. In the girls room colorful, contrasting and bright pink, blue, green and orange, the walls as both furniture and accessories.

此房屋内部装修工作由 DIN interiorismo 和客户共同合作完成，客户在此次设计中是非常重要的角色。建筑施工队由 Carlos Balcazar 负责，建筑与设计监督为 Jesus Sanfeliz，同时还有一些专业人士参与到服务、照明、结构、景观设计等工作中。

主要材料是奶油色大理石、木质地板，墙上的平面墙影和其他应用于细节的石材。有一些设计细节使用了玛瑙、银叶和皮革。家具有两种，大部分是专门设计定制的家私，也有一些品牌家具，如 Ralph Lauren, Teys, Donna Living 等。这些与大量使用的布制窗帘以及装饰品相得益彰。书房区域环绕着楼梯，基于内部设计理念，放置了一座艺术家 Enrique Espinosa 的雕塑作品。

整栋房子的天花板都很高，无论是起居室、餐厅还是酒吧。这样有利于展现艺术效果。此设计大量运用自然采光，从任何一个角度都能看到 600 平方米的大花园。

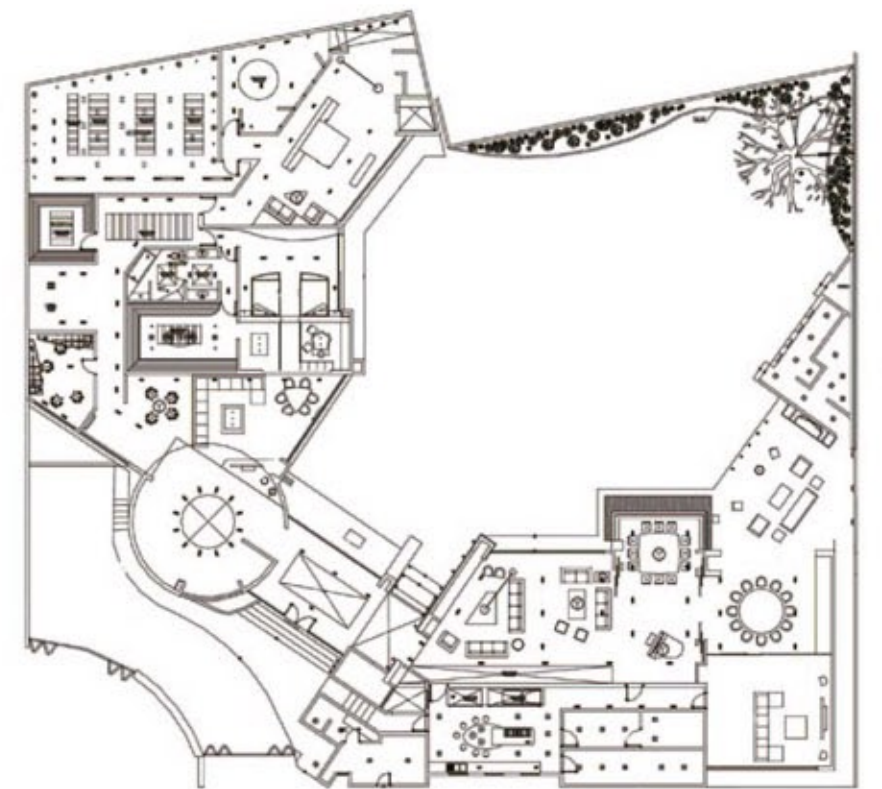

这座房子是为屋主的休闲享受而设计的，所以为屋主女儿的娱乐和教育提供了大面积的休闲区域。此外由于屋主喜爱电影和音乐，也有大面积的影音娱乐区域，如多媒体室，以及花园里的高级音响设备。设计师整合了其他区域以作为一个社交和家庭生活的场所。由于房屋面积大，所以设计中采用了不同的颜色。在公共区域，基调是红砖和奶油色的温暖色调，酒吧则采用了绿松石的青绿色。主卧采用了浅绿色。女儿的房间则色彩纷呈，墙壁、家具和装饰使用了对比强烈的亮粉、蓝色、绿色和橙色。
